

## Five South Carolinians Sail As Missionaries for China and Chile

(1) Miss Clifford Irene Barratt, Brocewood, evangelistic work, Pochow, China; (2) Miss Grace Stribling, West Chester, educational work, Kailong, China; (3) Miss Hannah Jane Plowden, Kingstree, evangelistic work, Soochow, China; (4) Millard Theron Rankin, Williston, evangelistic work, Canton, China; (5) Miss Cornelia Brower, Sumter, educational work, Temuco, Chile.

From the larger proceeds of the Baptist 75 Million Campaign the Foreign Mission Board of the Southern Baptist Convention has been enabled to send out more than 160 new missionaries since that movement was launched. It is announced, and of that number sixty young men and women, representing fourteen states, have just sailed for China, Japan, Africa, Brazil, Argentina and Chile. In addition to these, Dr. and Mrs. Everett Gill of Kansas City will sail September 14 to become representatives of the Board in Europe, while Dr. and Mrs. W. A. Hamlett of Austin, Texas, have just sailed for Jerusalem, where they will maintain headquarters in acting as the Near East representatives of the Board.

The new missionaries to China and Japan sailed from Seattle, Saturday, August 27, on the Hawkeye State of the Admiral Line, while those for Brazil, Argentina, Chile and Africa sailed from New York on the Aeolus August 17. They will be engaged chiefly in evangelistic, educational, medical and agricultural work and will be stationed at various points in these fields. While a large number of new workers have been sent out by the Board since the beginning of the Campaign, at least 100 other capable young men and women could be employed to advantage if they were available, Secretary U. F. Love advises.

### Mission Money Gets Results.

Of the more than \$25,000,000 that has been collected in cash on the 75 Million Campaign to date, about \$5,000,000 has gone to foreign missions. This has made it possible not only to strengthen the old work on all fields and send a large number of new

missionaries, but to do much other work, including building or making substantial additions to 15 boys' schools, 17 girls' schools, 37 mission residences, five hospitals and dispensaries, four light and power plants for mission compounds, 26 church buildings, four colleges, seven theological seminaries. In addition, assistance has been given seven church building loan associations, six new stations have been opened and equipped, land has been bought for the enlargement of several mission compounds, a home for orphans in Italy has been established, and a block of ground has been purchased in the heart of Rome for headquarters for the work in Italy, a theological seminary, publishing house, church and mission residence being provided on this property.

### Enlarge European Field.

As a result of the Campaign, Southern Baptists have been enabled to greatly enlarge their work in Europe. They have carried on mission work in Italy since 1870, but now they have opened up new work in Jugo-Slavia, Hungary and Roumania, and have made a beginning, through the distribution of Bibles, in the Ukraine and Southern Russia and Siberia. To act as the European representatives of the Board in this enlarged program, Dr. and Mrs. Everett Gill of Kansas City were recently named. They will probably make their headquarters in Switzerland.

The first work Southern Baptists have ever done looking to the evangelization of Mohammedan lands has just been undertaken in Palestine and Syria, and Dr. and Mrs. W. A. Hamlett of Austin, Texas, have gone to Jerusalem, where the

work of the native evangelists. It is planned to establish a church, theological seminary and college, hospital and orphanage at Jerusalem as soon as practicable and thus seek to reach other points in Palestine and Syria from this center.

### Minister to 900,000,000 People.

With the enlarged foreign mission program of Southern Baptists that denomination is now operating in 18 countries on every side of the globe, and has in its employ practically 500 foreign missionaries and twice that number of native workers trained in the mission schools. Through its present missionary operation, the Board is seeking to minister to 475,000,000 yellow people, 4,000,000 brown people, 200,000,000 black people and 225,000,000 white people, making a total of 900,000,000 people, or more than half the population of the globe. Numbered among its workers already on the field are 21 foreign physicians and 8 foreign mission nurses who last year gave 154,070 treatments. There are now 611 mission churches on the foreign fields and of this number 184 are self-supporting. The average contributions of these mission churches last year to denominational causes was \$5 per member, the Christians on the foreign fields responding more liberally as a result of the 75 Million Campaign.

The new missionaries sailing at this time were contributed by the following states: Alabama two, Arkansas one, Georgia five, Kentucky six, Louisiana two, Mississippi four, Missouri four, North Carolina three, South Carolina five, Tennessee five, Texas fifteen, Virginia six, Iowa one and Pennsylvania one.

adding vegetable matter, they serve as a powerful cleansing crop which destroys the weevils' winterquarters most effectively.

### SAVE CORN FOR EXTRA SEED

When corn is selected from the field for seed, the United States Department of Agriculture urges that enough seed be selected to serve for two or three years' plantings. This is essential in the origination and perpetuation of high-yielding varieties adapted to local conditions. Seed corn that matures well and dries out promptly without injury will keep its good germinating and yielding power for four or five years. Often a bad season will prevent the selection of desirable corn for seed. But home-grown seed corn of the best quality can be always available by protecting a sufficient quantity from moisture and from insects and other animals.

### THE BOLL WEEVIL.

#### DISPERSION HAS BEGUN

Clemson College, Sept. 5.—The boll weevil, so long as there is food available in the cotton field, does very little migrating during the spring and summer; but beginning about the middle of August, the pest is seized by the migration instinct and begins a period of dispersion which continues until stopped by the first killing frost. This, says Prof. A. F. Conrad, entomologist, explains to farmers why they have been observing a greater number of weevils in their fields during the last week or ten days than at any previous time.

The weevil is now over the entire state, specimens having been sent in by farmers from the extreme upper portions of the Piedmont section. Although the weevils are more numerous than we expected, because of mild winter, every farmer should put forth his best efforts to destroy the weevils' winter homes. This destruction consists in cleaning up terraces, ditch banks, fence rows, the edges of woods, neglected orchards, and other places where the weevil may find proper shelter.

Cover crops offer one of the best weapons in a weevil fight, because besides their agricultural value in preventing washing and leaching, and in

## OUR BANK and THEY ARE INSEPARABLE Your Future

A good future without saving is something that doesn't often happen, you know.

Our institution is a progressive money saving and investing bank.

We solicit the patronage of these whose personal attributes are likewise—and those who earnestly desire to become such.

You never regret money saved. There is no use to regret when it is gone.
